

Urilyzer 500 Pro

The high throughput of up to 500 tests/hour in combination with state of the art operator and data mangement functions provides the ideal system for mid-sized to bigger laboratories and for hospitals.

The Urilyzer® 500 Pro provides enhanced operator management and connectivity capabilities to meet the growing demands for compliance management and data capture. In combination with the urine test strip CombiScreen® 11SYS and 11SYS PLUS the system offers uncompromising ease of use, high quality and efficiency in a compact format.
